

# CHILD-MANAGED CODE -FOCUSED

## NAME PUZZLE

Time: 10 minutes

Materials:

- Blank strip of paper
- Marker
- Scissors

Ask the child, "What is your name?" Say, "Your name is spelled \_\_\_\_," (saying the name of each letter as you write the child's name on a strip of paper). Draw curved and slanted lines between each letter, then cut them apart into puzzle pieces. Mix up the puzzle. Ask the child to help you rebuild their name puzzle. The child should name each letter, and then read their name when the puzzle is complete. Mix up the puzzle again and again until the child can spell their name without support.
